To Whom It May Concern:

I have enjoyed an excellent working relationship with Dave Sousa of David Sousa Plumbing and Heating for the past several years, and find him to be extremely skilled in his profession.

Dave's men are competent and reliable. It's refreshing to have a subcontractor who follows through with his commitments. If Dave says his men will be on site on Monday, you can count on them to be there.

I hold Dave in very high regard for his character, integrity, and ability to get the job done. I would confidently recommend him for any project for which he was being considered.

Sincerely,

Philip Clark, AIA
Chief Executive Officer
