**FIRST  
CHURCH  
OF CHRIST,  
SCIENTIST**

May 11, 2010

To Whom It May Concern:

We are pleased to provide this letter of recommendation for David Sousa Plumbing and Heating. We have relied on David Sousa Plumbing and Heating for all of our plumbing and heating needs for our 8,000 square foot church building since 2006. This has included major renovation of bathrooms including all new water and sewer lines and fixtures, running a new water main from the street, installation of a new gas fired steam boiler, installation of hot water heaters and pumps, as well as general plumbing maintenance.

David Sousa Plumbing has performed exceptionally well in all of the work, completing projects on time and within budget, and working seamlessly with other contractors.

David and his team have a broad knowledge of plumbing, heating and electrical systems and are highly effective problem solvers. They have been able to resolve issues that had remained unresolved for years when we were using other plumbers. He has also corrected HVAC control problems that technicians from other companies could not resolve.

David and his staff are a pleasure to work with. They listen to our needs, understand the issues involved and respond appropriately and quickly.

We are very happy to recommend David Sousa Plumbing and Heating.

Sincerely,  
David Suthergreen  
Chairman, House and Grounds Committee
